Who are we and what do we do?
BrowserStack is the world's leading software testing platform powering over two million tests
every day across 15 global data centers. BrowserStack's products help developers build bug-free software for the 5 billion internet users accessing websites and mobile applications through millions of combinations of digital environments—devices, browsers, operating systems, and versions. We help Tesco, Shell, NVIDIA, Discovery, Wells Fargo, and over 50,000 customers deliver quality software at speed by moving testing to our Cloud. With BrowserStack, Dev and QA teams can move fast while delivering an amazing experience for every customer.

BrowserStack was founded by Ritesh Arora and Nakul Aggarwal in 2011 with the vision of becoming the testing infrastructure for the internet. We recently secured $200 million in Series B funding in June 2021.

At BrowserStack we solve real problems—each day is a unique challenge and an opportunity to make a difference. We strive to be open, transparent, and collaborative, so no feat is too big to achieve. BrowserStack is an extension of its people and a place where they can grow both professionally and personally. To that effect, we're humbled to be recognized by leading organizations around the world:

- BrowserStack is Great Place to Work-Certified™ 2020-21
- Named "SaaS Startup of the Year" in 2022 by SaaSBOOMi
- Ranked in Forbes Cloud 100 in 2021 - for the second time
- Featured in LinkedIn Top Startups India 2018
